# Cooperate Declaration

**A**s a company with zest for continuous growth and developments since its inception, there are number of objectives and strategies to position the company firmly in global services.

These objectives and strategies are:

- To provide high quality Oil and Gas, Engineering services locally with international focus.
- Ensuring the production, Importation, exportation and distribution of Oil and Gas products where need arises.
- Engage the services of well motivated professionals in combination with state of the art technologies to ensuring best practices and output
- Place premium value on its human resources and invest heavily in quality personnel through focused career development, recruitment and intensive training programs.
- Its business is built around effective and efficient team, supported with appropriate and modern systems, policies and procedures.

## OUR COMPANY

ICONEFFICAL OIL AND GAS NIGERIA LIMITED, is founded by Engr. Kingsley O. Iheanacho it Started Operation in 2025. It is fully incorporated with the Corporate Affairs Commission (CAC) of Nigeria. It is an indigenous company with strong global focus.

The company parades a team of experienced workforce which is comprised of Oil and Gas engineers, Technicians and administrators in various capacities and fields.

Our team are goal-getters, goal oriented individuals with zest for success in their various areas of specialty. Our outmost focus is to ensure that quality service delivery at every stage of contract execution is paramount.

The team's unrivalled understanding of the onion as regards service delivery in her areas of specialization such as Quality and Quantity control techniques.

Our company has a “no-compromise-on-quality” stance as an operating policy.

In choosing associates, the company have been very careful and professional, investigating to establish our material manufacturer's track record, adherence to minimum international standards, and price competitiveness. By following this thorough procedure, we have been able to deliver high quality services to our clients overtime. The consistency in our services has been responsible for the company's growth and progress in achieving the desired status.

In furtherance of good service delivery, cordial relationship and expansion, we also engage third party and expatriates where need arises to ensure service delivery falls nothing short of our client's expectation.

We are budget conservative, good specification and detail analyst. Our business concept is to operate a disciplined and customer oriented philosophy. Our collective belief is that our service is our pride.

### EXECUTION

Project execution and management

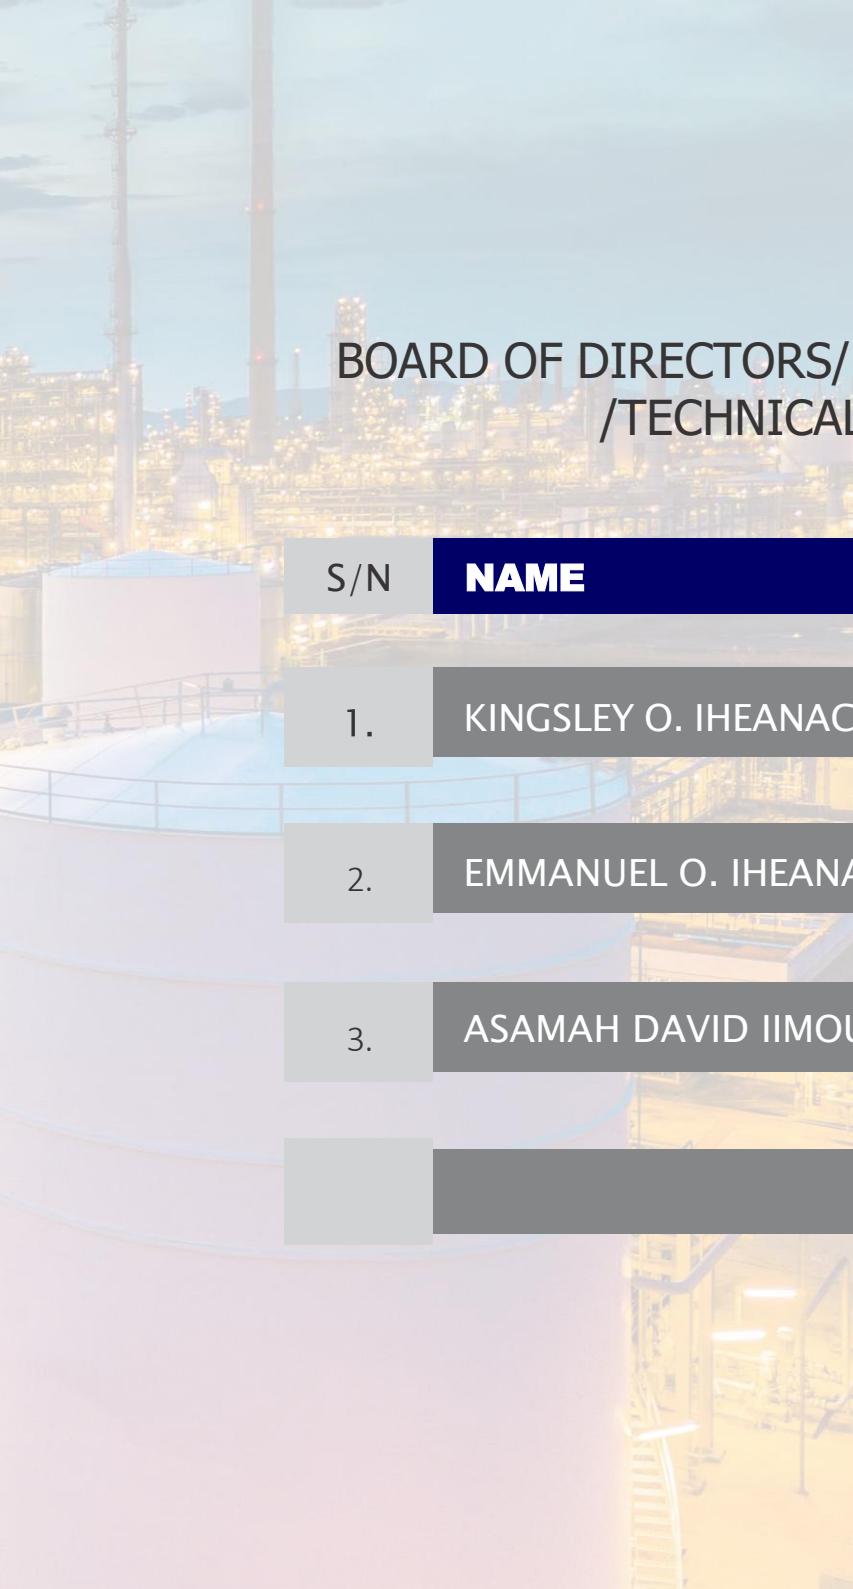

We are experienced in providing quality services and products. ICONEFFICAL OIL AND GAS NIGERIA LIMITED helps clients designs, build, and logistics through a network of facilities covering most areas of the Federation. This presence provides our clients with complete designs, engineering, and material supply resources that are vertically integrated with Engineering solutions to optimize their operation by lowering their costs and reducing their time to market.

We are fully equipped to face the challenges of tomorrow in collaboration with our sub and national partners. With our comprehensive designs and engineering services, we are meeting the requirements of the end-users. The success story of ICONEFFICAL OIL AND GAS NIGERIA LIMITED continues with a vision commitment, hard work with dedicated and qualified teams having the highly professional background, vision, and innovation skills.

# COMPANY ORGANOGRAM

# PROFILE OF MEMBERS OF OUR PROFESSIONALS/HEAD OF DEPARTMENTS

## ENGR KINGSLEY IHEANACHO

### **Managing Director, Iconeffical Oil and Gas Nig Ltd**

A visionary leader with over 28 years of experience in the Oil and Gas industry, Engr Kingsley Iheanacho has established himself as a prominent figure in the sector. Holding an HND in Welding and Fabrication from the Petroleum Training Institute, Warri, he has built a successful career spanning multiple disciplines.

With a rich background in community development, civil engineering, and pipeline engineering, gained from his tenure at Shell Petroleum Development Company, Engr Kingsley has developed a deep understanding of the industry's complexities. As a seasoned entrepreneur, he is also an estate developer and oil marketer, with leadership roles as Managing Director in multiple companies, including:

§ Kesyno Courtyard, Abuja

§ Kesyno Oil and Gas Ltd

§ Iconeffical Oil and Gas Nig Ltd

Under his leadership, Iconeffical Oil and Gas Nig Ltd has poised itself for growth and success, leveraging his expertise and industry knowledge to drive innovation and excellence.

## ROWLAND OKOTIE

### **General Manager, Iconeffical Oil and Gas Nig Ltd**

A seasoned Petroleum Engineer from University of Benin with over 20 years of experience in the Oil and Gas industry, Mr. Rowland Okotie brings a wealth of expertise to Iconeffical Oil and Gas Nig Ltd. Holding an MBA and various certifications in HSE, Quality Management System, and Project Management, he is well-equipped to drive strategic growth and operational excellence.

With a proven track record of delivering complex projects, Mr. Okotie's leadership ensures that Iconeffical Oil and Gas Nig Ltd maintains the highest standards of quality, safety, and environmental responsibility. His vision and expertise have been instrumental in shaping the company's success in the energy sector.

## MODESTY NKWOCHA

### **Acting Project Manager, Iconeffical Oil and Gas Nig Ltd.**

A seasoned professional with extensive experience in project management, Modesty Nkwocha serves as Acting Project Manager at Iconeffical Oil and Gas Nig Ltd. Holding a Higher National Diploma (HND) from Federal Polytechnic Nekede, an Advanced Diploma in Tent Making from Rescom, and a Postgraduate Diploma in Theology from RCBC, he brings a unique blend of technical and academic expertise.

With a strong background in overseeing complex projects, Modesty ensures timely delivery, quality control, and stakeholder satisfaction. As a results-driven leader, he demonstrates exceptional organizational skills, driving projects to successful completion while adhering to safety, environmental, and regulatory standards. His expertise and dedication makes him an invaluable asset to the team, ensuring projects are executed with precision and efficiency.

## ABUBAKAR MOMODU

### **Personal Assistant to the MD, Iconeffical Oil and Gas Nig Ltd**

A versatile professional with a strong background in engineering and technology, Abubakar Momodu serves as Personal Assistant to the MD at Iconeffical Oil and Gas Nig Ltd. As a mechanical engineer with B.Eng from University of Benin and with an HND in Computer Science from Auchi Polytechnic, he brings a unique blend of technical expertise and administrative acumen.

With certifications in HSE Levels 1-3, Abubakar has worked across multiple industries, including construction, finance, and investment. His experience spans computer science, building and construction, financial auditing, and HSE management, accumulated over 5 years. He provides efficient support to the MD, ensuring seamless operations and effective management.

## WILFRED IKOLO

### **Site Manager, Iconeffical Oil and Gas Nig Ltd**

A seasoned mechanical engineering professional with over 17 years of industrial experience in the oil and gas sector, both locally and internationally. With an HND certificate in Mechanical Engineering from Petroleum Training Institute, Warri, Wilfred Ikolo brings a wealth of expertise in construction project management, supervision, and coordination.

With a solid background in managing piping and structure erection, coating, and mechanical equipment installations, he excels in: Construction Management, QA/QC Inspection and Coordination, Project Supervision and Coordination, NDT/Film Interpretation, Maintenance and Repairs, QMS Auditing.

As a result-driven and energetic leader, Wilfred demonstrates exceptional decision-making skills, ensuring project quality, health, safety, and environmental compliance. He is a team-oriented professional with a strong commitment to delivering high-quality work, even in challenging conditions.

## ENGR. DANIEL OVBOKHAN AIWEKHOE

### **Site Engineer, Iconeffical Oil and Gas Nig Ltd**

A seasoned Petroleum Engineer with 14 years of experience in the oil and gas industry, Engr. Daniel Ovbokhan Aiwekhoe brings a wealth of expertise to Iconeffical Oil and Gas Nig Ltd. With a strong educational background from the University of Benin, he is a certified professional with various credentials, including:

- Member, Nigerian Society of Engineers
- ISO 2015 Certified
- COREN (Council of Registered Engineers of Nigeria) Certified
- Offshore Permit Certified

Throughout his career, Engr. Daniel has worked with renowned companies, both local and multinational.

With his extensive experience and certifications, Engr. Daniel is well-equipped to drive project success and ensure operational excellence in his role as Site Engineer at Iconeffical Oil and Gas Nig Ltd.

## MR. PRINCE JOSEPH OGNONNA

### **Procurement officer, Iconeiffical Oil and Gas Nig Ltd**

A results-driven procurement professional with 5 years of experience in sales, supervision, and community development, Prince Joseph Ognonna serves as Procurement Officer at Iconeiffical Oil and Gas Nig Ltd. Holding a Bachelor's degree in English/Management Studies from Enugu State University of Science and Technology, he brings a strong academic foundation to his role. With a diverse background in sales, supervision, and community coordination, Prince has worked with various organizations.

As Procurement Officer, Prince leverages his experience and skills to drive efficient procurement processes, ensuring timely delivery of quality goods and services to support Iconeiffical Oil and Gas Nig Ltd.'s operations.

## DAVID TEKURA MAASHIN

### **Accountant, Iconeiffical Oil and Gas Nig Ltd**

A detail-oriented accounting professional with 5 years of experience in financial management and cash handling. David holds a Bachelor's degree in Accounting from Ambrose Alli University, Ekpoma, and has worked in various roles and has experience in managing financial transactions, overseeing financial operations which include financial planning, budgeting, and reporting, skilled in managing cash transactions and maintaining accurate financial records. **Analytical Skills:** Strong analytical and problem-solving skills, with the ability to interpret financial data and make informed decisions

With his experience in finance and accounting, David is well-equipped to handle accounting tasks, including Preparing financial statements and reports, managing accounts payable and receivable, analyzing financial data and providing insights for business decisions and ensuring compliance with financial regulations and standards

As an accountant at Iconeiffical Oil and Gas Nig Ltd, David leverages his skills and experience to drive financial efficiency and support business growth

## ADIBEMMA MARCEL IKE

### **Maintenance Officer/Materials Inventory Officer**

A result-driven and versatile professional with a unique blend of technical expertise in mechanical engineering, field operations, and data analysis. Marcel holds a Bachelor's degree in Mechanical Engineering from Enugu State University and leverages his skills to drive business outcomes.

He has 9 years of experience in maintenance, engineering, and data collection, Marcel has worked in various organizations.

As Maintenance Officer/Materials Inventory Officer, Marcel utilizes his leadership and interpersonal skills to ensure efficient maintenance operations and inventory management, driving business success. His expertise in mechanical engineering and field operations enables him to optimize maintenance processes, while his data analysis skills inform decision-making and improve outcomes.

## AKINNUWA OMOTOSHO

### **HSE Officer, Iconeiffical Oil and Gas Nig Ltd**

A seasoned professional with expertise in Health, Safety, and Environment (HSE), Akinnuwa Omotosho serves as HSE Officer at Iconeiffical Oil and Gas Nig Ltd. Holding an HND in Mechanical Engineering from the Petroleum Training Institute, Warri, he brings a strong technical background to his role.

With certifications in Rigging, HSE Levels 1, 2, and 3, and Crane Operation, Akinnuwa demonstrates a deep understanding of safety protocols and regulations. His experience as a Maintenance Officer at Powertrac Machinery and Investment Company, Warri, has equipped him with practical knowledge of equipment maintenance and safety procedures.

As HSE Officer, Akinnuwa is committed to ensuring a safe working environment, identifying potential hazards, and implementing effective safety measures to prevent accidents and incidents. His expertise and certifications make him an invaluable asset to the team, driving a culture of safety and compliance with regulatory standards.

## SIMON ORUKPOSE UGHE

### **Firewatch, Iconeiffical Oil and Gas Nig Ltd**

A dedicated professional with expertise in fire safety and laboratory analysis, Simon holds a Bachelor's degree in Laboratory Technology from the University of Benin. With certifications in HSE and Firewatch, he ensures strict adherence to safety protocols.

With experience as a Lab Analyst at Thermosteel Nig Ltd, Simon brings a strong analytical background to his role as Firewatch at Iconeiffical Oil and Gas Nig Ltd. His expertise enables him to identify potential fire hazards, respond effectively in emergency situations, and maintain a safe working environment. He is also skilled in identifying potential hazards and responding to emergency situations.

As Firewatch, Simon plays a critical role in ensuring the safety and well-being of personnel and equipment at Iconeiffical Oil and Gas Nig Ltd.

## JOHN CHUKS EDOZIEM

### **Logistics Coordinator, Iconeiffical Oil and Gas Nig Ltd**

A detail-oriented and data-driven professional with experience in logistics coordination, data analysis, and administration. A graduate of Biochemistry from the Federal University of Technology, Owerri, John brings a strong analytical background to the company. Skilled in tools like Excel, Python, Power BI, and Tableau, he leverages data analysis to drive business insights and support business operations, enabling informed decision-making and process optimization.

## SIMPLE ENEBELI

### **QA/QC Coordinator, Iconeffical Oil and Gas Nig Ltd**

A seasoned quality assurance and quality control (QA/QC) professional with 16 years of experience in the oil and gas industry. Simple holds a degree in Materials and Production Engineering from Ambrose Alli University, Ekpoma, and has a strong background in ensuring quality standards in various roles, including:

- § QA/QC Officer: Experienced in implementing quality control measures in construction companies and machine shops
- § Rigger: Skilled in rigging and lifting operations, with a focus on safety and efficiency
- § Production/Maintenance Engineer: Proven ability to oversee production and maintenance operations, ensuring quality and reliability
- § Post-Weld Heat Treatment Technician: Experienced in post-weld heat treatment processes, ensuring compliance with industry standards
- § Firewatch: Trained and certified in fire safety and emergency response

#### Certifications:

- § HSE Levels 1-3: Certified in Health, Safety, and Environment management
- § ASNT Level II: Certified in Non-Destructive Testing (NDT) methods, including Radiography Testing (RT), Penetrant Testing (PT), Magnetic Particle Testing (MT), and Visual Testing (VT)

As QA/QC Coordinator at Iconeffical Oil and Gas Nig Ltd, Simple leverages his experience and certifications to ensure quality standards are met, and operations are conducted safely and efficiently.

## OIL AND GAS

Oil and Gas services is a key aspect of our specialized services not excluding its complimentary components that ensures we offer single-package-serves all. These also include supply or distribution of finished products to clients/consumers at various locations. Our supply mediums ranges from Road to Sea.

Our list of professionals are comprised of experienced Oil and Gas engineering and scientist that ensures contract details are properly interpreted, adhered to during execution.

Drilling services are critical to the exploration and production of oil and natural gas, enabling access to subsurface hydrocarbon reserves, hence our services are broadly categorized into onshore and offshore drilling, each with distinct operational environments, technologies, challenges, and economic considerations.

We are equipped with necessary man power, professional know how, technology, methodologies, and applications for effective execution of projects.

## ONSHORE AND OFFSHORE DRILLING

## WIRELINE AND WELLHEAD MAINTENANCE

Wireline maintenance and wellhead maintenance are critical services in the oil and gas industry, ensuring the operational efficiency, safety, and longevity of wells in both onshore and offshore drilling operations. This branch of our services are vital for maintaining well integrity, optimizing production, and mitigating risks associated with equipment failure or environmental hazards. We are well equipped with the technical-knowledge with enduring experience from past projects. Our reputation replication per project is a huge motivation for us at ICONEFFICAL OIL AND GAS NIGERIA LIMITED

## MARINE TRANSPORTATION AND MAINTENANCE

Marine transportation and marine maintenance services are essential components of the maritime industry, supporting the global movement of goods, people, and resources while ensuring the operational efficiency and safety of vessels. These aspect of our services are critical for the oil and gas sector, offshore wind, commercial shipping, and recreational boating. Below is an overview of our marine transportation and marine maintenance services.

### Types of Vessels:

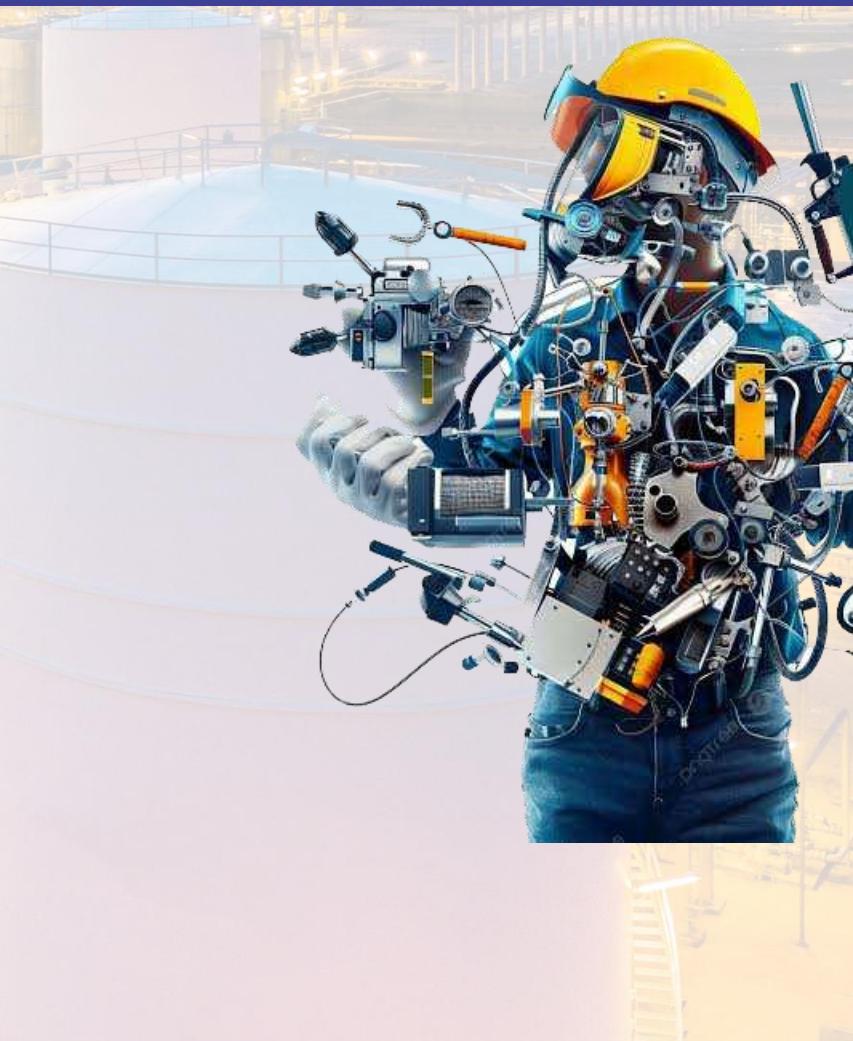

**Cargo Ships:** Container ships, bulk carriers, and roll-on/roll-off (RO/RO) vessels transport goods like containers, raw materials, or vehicles.

**Tankers:** Used for transporting crude oil, petroleum products, or liquefied natural gas (LNG), with modern vessels like Crowley's LNG-powered containership Quetzal designed for efficiency and lower emissions.

**Tugboats and Barges:** Employed for harbor services, towing, and transporting cargo in challenging environments like Arctic waters.

**Specialized Vessels:** Support offshore industries, including supply vessels for oil platforms and installation vessels for offshore wind farms.

# MECHANICAL AND ELECTRICAL ENGINEERING

Mechanical and electrical engineering jobs play a critical role in the marine transportation and maintenance sectors, supporting the operation, safety, and efficiency of vessels, offshore platforms, and related infrastructure.

These roles require specialized skills to design, maintain, and repair complex systems in challenging marine environments. ICONEFFICAL OIL AND GAS NIGERIA LIMITED, we deploy experienced professionals for all mechanical and electrical projects planning and execution, ensuring that details of contract, international standards and best practices are adhered to at every stage of project, ensuring the use standard components, parts and equipments and the application of new innovations.

ICONEFFICAL OIL AND GAS NIGERIA LIMITED as a synergy company, specializes in the construction/fabrication of Storage tanks, Pipes, Installation lines.

These processes involves integrating of designs, manufacturing, assembling, and installing structural components such as as steel, metal, or modular units for industrial, commercial, residential, or energy related projects.

We combine engineering, procurement, and on-site or off-site construction to deliver efficient, high-quality outcomes, reducing downtime and costs through prefabrication and modularization.

## CONSTRUCTION/FABRICATION

# CIVIL ENGINEERING

Our services encompass a broad range of professional expertise in which Civil engineering works forms a significant part, focusing on design, construction, and maintenance of infrastructure for new and already existing environments.

This branch of our services are for projects ranging from rural to urban development, environmental protection, ensuring safety, sustainability, and efficiency. We carry out Site Development and Land Planning: This includes site investigations, grading, drainage design, and utility planning for commercial, residential, or industrial projects.

For structural projects, we analyze soil stability, foundation design, and structural integrity for buildings, bridges, and dams.

## MACHINERY & EQUIPMENT SUPPLY

ICONEFFICAL OIL AND GAS NIGERIA LIMITED Leasing and supply of equipment services involve providing access to specialized machinery and tools required for construction, infrastructure development, geotechnical exploration, and related projects without the need for outright purchase. These includes leasing heavy equipment like excavators, bulldozers, drilling rigs and supplying ancillary tools or consumables such as drill bits, safety gear to support civil engineering tasks like site preparation, road construction, or geotechnical drilling. This ensure that clients reduces upfront costs, preserves cash flow, and offers flexibility to scale equipment use based on project demands, while supply ensures access to necessary materials and parts. This is critical where projects often require expensive, specialized equipment for limited durations.

Our Heavy Equipment Leasing and Rental:  
Covers machinery like excavators, graders, cranes, and drilling rigs for construction and geotechnical work.

# IMPORT AND EXPORT

We facilitate Importation and Exportation of Oil and Gas/Engineering Equipment and Machinery. It is the facilitation of international movement of heavy-duty assets like excavators, cranes, bulldozers, drilling rigs, and related parts. We handle logistics, customs clearance, compliance with trade regulations, and transportation to support civil engineering projects. In a global market where construction demands fluctuate due to infrastructure booms in emerging economies, our services enable cost effective sourcing of new, used, or refurbished equipment while navigating challenges like tariffs, safety standards, and environmental rules.

This branch of our services is vital as it bridges domestic needs with global availability. Providers offer end-to-end solutions, from sourcing to delivery. Key categories include: Freight Forwarding and Logistics: Manages shipping via container, Ro-Ro (roll-on/roll-off), or flat-rack methods for oversized loads. Includes disassembly, packing, and transit insurance.

## SUMMARY

We're both professionally and technically, equipped with vast working experience that stands out at every site and projects that we've have executed in the past. We shall continue to make our footprints seen at every opportunity that arises in our path of growth and development

# Why you should Choose Us!

ICONEFFICAL OIL AND GAS NIGERIA LIMITED has unique set of comparative skills and status as follows :

## INDIGENESHIP

As a home company, we comply with all governmental laws, rules and regulations. Show consideration for the safety and welfare of everyone, including our natural environment. Being a home grown company is an added advantage.

Respond to the impact our work has on the natural environment by consistently evaluating and improving our efforts so that our projects and processes work in harmony with the environment.

## ENVIRONMENTAL AFFAIRS POLICY

We are committed to providing materials, Engineering services in the areas of Oil and Gas, Construction and Fabrication, Civil Engineering, Maintenance services and many more while taking a leading role in protecting the environment and our natural resources.

## PROACTIVE APPROACH

Be proactive in meeting environmental challenges. Establish and maintain appropriate programs and plans to preempt environmental damage resulting from our operations.

## SAFETY:

We are safety compliance company.

01

### OUR GOAL

Provide best available Oil and Gas through deployment of professionalism and modern technology.

02

### OBJECTIVES

Total commitment to quality at every sphere of our service.

03

### FRAMEWORK

Creating, developing and Maintaining Oil and Gas Infrastructures.
